## THE BLUES HAD A TRY

Out by the Home Team.

BROOKLYNS ARE ON TOP.

Byrne's Team Gets the American Association Pennant.

PITCHER BALDWIN MAKES A KICK.

Some Interesting Racing on Latonia and Jerome Park Tracks.

GENERAL SPORTING NEWS OF THE DAY

The Braddock Blues, of the County league, tackled the home team and got whitewashed. The Brooklyn ball club wins the American Association pennant. Mark Baldwin leaves the box because of The Athletics Eastly Defeat His Team in a bad support. There was some interesting racing at Latonia and Jerome Park.

The Braddock Blues, of the County league, tried their hands with the Pittsburg ball team yesterday at Recreation Park. The Blues were beaten, of course, but taking everything into consideration they made a very respectable stand against the National League representatives. If the first mning could be excluded it could safely be said that worse playing has been seen a

the park than was seen yesterday.

But there is little or nothing to attract in a game between a team like the Pittsburgs and a local amateur aggregation. The foregone conclusion of victory takes all interest out of the contest. There is so little to compare between the two teams that comparisons would be ridic ulous. However, the fact that the Pittsburgs are going to go through the list of the four best clubs in the County league it will be of in terest to see how each of the four fares with the professionals. Taking this view of the week's series there probably will be some good result from the games.

#### MUST TREAT THEM KINDLY. It is always unfair, at any rate ungenerous,

to criticise amateurs severely. A little advice now and then may be in place, but a player who is a player without being paid for it ought to escape much fault finding. However, it can be conscientiously said that the work of the Blues yesterday was a great improvement on that of the East End Athletics when they faced the Pittsburgs last week; indeed, judging of the work of the two teams as seen against the Pittsburgs, it seems strange that the Blues should have to play second fiddle to the East Enders. The Braddocks are good fielders, and in Gordon they had quite an effective pitcher yesterday. Killen, however, was not a success as a catcher, and he undoubtedly caused Gordon to make several wild pitches. With a good catcher and plenty of practice Gordon ought to make quite a useful man in the box Shields is not a bad shortstop by any means, but his failing seems to be in handling grounders. Cooper is a good fielder. But the weak spot of the Blues is their

game was called just after the seventh inning had been started. The first inning was a settler, as four runs were made on Kuchne's triple to right, Rowe's singled to left, three passed balls, two bases on balls and five wald pitches. After that Gordon settled down and struck the next two men out and the third went out on a next two men out and the third went out on a fly to Shields. Gordon pitched well and not a run was made until the sixth, when Sunday led off with a scratch hit, stole second and scored on Dunlap's sacrifice and Hess' singles. A wild throw by Killen and another by W. Ben-nett allowed Hess to score. The seventh inning was started and Fields made a single to ning was started and rietus made a single to middle and stole second. He scored on White's double to left, and when Sunday was at bat Killen was hit on the shoulder by a foul tip. He complained of the blow and the game was called. The Blues could do nothing with Maul and they only had two men at first, one of whom reached second. Following is the score:

THE BROWNS WIN. They Defeat the Cincinnati Reds in an Exciting Contest.

Braddock's Delegation Shut

Cincinnati, October 14.—The Cincinnatis gave the St. Louis a hard fight for to-day's game up to the sixth inning, when Mullane was touched up for a double and two singles, which gave the visitors a couple of earned runs and a winning lead. "Silver" King pitched for the Browns and did magnificent work, as he did not send a man to base on balls and had eight strike outs to his credit. Hecker favored St. Louis in his umpiring. McCarty's magnificent catch of Holliday's terrific hit and the fielding of Duffee were the features. Score:

### BARNIE BADLY DOWNED.

Short Game.

PHILADELPHIA, October 14.-The Athletic and Baltimore clubs played a five-inning game here this afternoon before 78 paying spectators. The visitors were averse to playing, but as the Athletic management had made arrangements to play off three postponed games with St. Louis they did not care to take chances on Baltimore insisting upon its claim fer the next open date. McMahon pitched an effective game and was well supported, while Cunningham was hit hard and his support was indifferent.

The feminine race-goers were huddled together in the stand and the men sought the protection of the betting paddock, The sloppy condition of the track caused wholesale withdrawals, and resulted in comparatively small fields.

They are fearfully weak at the bat, and if they were strengthened there they will be a tolerably fair team.

### THE GAMES WILL COUNT.

An Opinion as to the Postponed Association Championship Contests.

(SPECIAL TELEGRAM TO THE DISPATCH.) KANSAS CITY, October 14.-When Attorney L. C. Kranthoff was asked to-night to give an opinion on the question of the exten-sion of the Association season he quickly replied that there could be but one opinion on that subject. The constitution of the American Association, he said, provides that the regular season shall close on a fixed date, that after such date there shall be allowed a limited number of days for playing anowed a limited number of days for playing off postponed championship games.

At the meeting in Cincinnati October 15, 16 and 17 were fixed upon as the days upon which such games could be played. Any games played upon those dates must be as legal as regularly scheduled championship games. In regard to disputed games Mr. Kranthoff declined to express an opinion.

A Mississippi Murder Case Settled Outside of the Court Room-Two Men Killed and an Innocent Bystander Badly Injured.

NICHOLSON, MISS., October 14 .- There occurred here to-day a fatal affray, resulting in the death of Dr. W. M. Tett, of this place, and F. C. Collins, of Lacev, Miss. and the severe wounding of Quitman Perton. Dr. Tett is the same person charged with complicity in the Osyka tragedy of last year, in which druggist Vamodo was assassinated. Dr. Tett was under bond to appear before H. W. Stockstill, Justice of the Peace, to-day. Collins and J. W. Turner were summoned as witnesses against Dr. Tett. He (Tett) had some angry words with Collins. Just as some one tried to drag him out of danger Tett fired a load of buckshot into Collins' face, killing him instantly. Some of the shot took effect in the back of Quitman Perton, an innocent bystander, who had not time to get out of

Tett emptied his second barrel in the body of Collins as he lay at the foot of the steps. Turner, seeing his brother-in-law, Collins, fall at the steps, ran to a window and opened fire on Tett with his pistol. A pistol duel between Turner and Tett ensued, Tett retiring as he fired. Tett re-ceived one pistol ball in the breast and one in the back just below the ribs, both balls passing through him. He lived about three hours. Perton is doing well.

He Goes to Washington to Help General Mahone in Virginia.

THE LATTER NEEDS HIM BADLY.

Mathew Stanley is Anxious to Settle the Postoffice Fight Here.

A Plan to Make Frank Case Postmaster Causes General Flutter.

GIVING UP BEAVER FOR THE WINTER

Senator Quay has gone to Washington to spend the winter. He leaves primarily so early in the season to help out Mahone in Virginia, who is struggling hard against fate and Southern Democrats. The Senator is anxious to have the Case postmastership fight settled at once.

Senator M. S. Quay had the Pennsylvania limited stopped at Besver Falls last Sunday night, and he then boarded it, bound for Washington. His presence upon the train was not discovered at the Union station, and the junior Senator escaped running the reportorial gantlet, peaceably continuing his journey to Washington, where he arrived yesterday morning, driving immediately to his new home, No. 1829 I street, whither his family had preceded

him ten days previously.
Senator Quay will be no more seen at
Beaver during the coming winter. He will
definitely remain in Washington from this
time on. The boys who want to see him will have to make a more lengthy pilgrimage than from Pittsburg to Beaver.
His early presence at Washington is sighis early presence at washington is sig-nificant in more ways than one. The Na-tional Republican Committee is taking a most active part in the pending fight in the Old Dominion. The battle is one of the fiercest in the checkered political history of

that State, and it is known that General Mahone has sent up a Macedonian cry which

could not be disregarded. In the culmina-tion of the campaign it will be the mailed hand of the National Republican Chairman which will direct the onslaught upon the Democratic cohorts.

. BRINGING THE BOYS BACK. Senator Quay is to throw oil upon the troubled Republican waters also, and he has it in his power to bring the recalcitrants into camp. Although in Washington, he will assume personal charge of the Virginia campaign, and all the potent arguments which wrested the crown of victory in last November from a sanguine Democratic administration will be made use of during the next three weeks to break the solid South. It is recognized by the National Committee that Mahone's victory will be the most crushing blow to Southern Democracy that could be devised. Senator Quay remarked at the Union depot to a friend who met him by apppointment that "he thought General Mahone would be elected." This quiet confidence in the result of the Virginia fight speaks volumes. Through the registered bond plan devised by Senator Quay, the National Committee is not with-

out the sinews of war.

Senator Quay will also keep a weather eye upon the Pittsburg postoffice fight. Certain Pittsburg gentlemen have recently placed themselves on record in the archives of the Postoffice Department as being in favor of continuing Postmaster Larkin in office until the last moment of his commission time. This makes the Senator very

The latter asked many minute questions in regard to Allegheny county politics. He wanted to know whether there was any truth in the report that certain friends of Major Montooth were languishing to have him withdrawn from the Gubernatorial race in order that the Hastings boom might be decently espoused by the aforesaid friends.

To this question various answers were re-turned. Several other matters were talked of, but Senator Quay is famous for asking quantities of questions and answering very But to all interrogations as to status of postoffice, Collector of the Port, U. ### MUCH INDIGNATION IN ENGLAND

Because of the Acquittal of a Peer Charged With a Serious Offense.

LONDON, October 14 .- The scene in the courtroom at Dumíries to-day when the jury in the case of the Earl of Galloway, charged with misbehavior toward girls of tender years, brought in a verdict of acquittal was one rarely witnessed in a criminal court in this country. The guilt of the accused seemed so clearly established by such evidence as was allowed to filter through the objections of the six eminent counsel for the defense, that those present in the courtroom. many of whom were triends and relatives of little girls whom the aged nobleman was charged with abusing, took no pains to con-

The announcement of the verdict was the signal for loud expressions of disapproval from the benches where the spectators were seated, and the frowns and threats of the presiding judge were of no avail to sup-press the cries of "shame" uttered by dozens of indignant persons. In London the news of the verdict was received with great indignation among the common people, and it is pointed out that had the accused been anything but a great nobleman the evidence brought out would have been sufficient to convict him a dozen times over.

#### GOOD AT COUNTING.

The Montana Legislature Now Claimed by the Republicans-A Precluct With a Big Democratic Majority Thrown Our.

HELENA, MONT., October 14 .- The news from Butte that the Silver Bow County Canvassing Board had thrown out the Homstake Tunnel precinct, which gave a Democratic majority of 168 out of 172 votes, was received here with jubilation by the Republicans and dismay by the Democrats, because if the courts sustain the decision of the Canvassing Board, it will insure Republican control of the State Legis-lature. Party feeling runs pretty high and there is much excitement over the news, but the general sentiment is that the matter will be left to the courts to adjudicate. An interesting complication, however, will probably ensue over this matter. With-out Silver Bow county the Republicans would control both branches of the Legis-

lature and should the Governor call that

body together before the contest is settled a sufficient number of Democratic members to prevent a quorum would probably stay away, so that we would probably be without a Legislature until the Supreme Court decides the dispute. Another interesting feature is its effect upon the Governorship, and Mr. Toole will not be inaugurated unless it is patent that he is elected without the big majority of the rejected precinct.

The count in Lewis and Clark counties is still in progress, but nothing new has developed. A few irregularities were discovwhich gave 30 Democratic majority, and the precinct may be thrown out. This will not affect the result on the Legislative ticket, but may elect two more Republicans on the county ticket. The canvassing board is composed of two Democrats and one Repub-lican. It is said to-night the Democrats will to-morrow file contests against several Republican precincts in this county. As the returns are now declared from every

county in Montana, the Legislature stands: Senate, Republicans 8, Democrats 8; House, Republicans 30, Democrats 25. Members of the Democratic State Committee say that they have the law of the Territory on their side, as the Supreme Court, several years ago, de-cided a case of the same kind, holding that if the votes were legally cast, the fact that a less number of judges than those provided by law presided at the election did not vitiate the returns. They feel confident an order will be issued by De Wolf compelling the canvassers to count the votes as the return should be counted, giving them ten members of the Silver Bow Legislative delegation.

Twenty-one employes of the Pension Bureau have had their cases illegally rerated, and action will be taken to recover the money back into the Treasury. Senator Manderson's case will be taken as a precedent. Secretary Blaine says that the first duty of Congress will be to revise the tariff

WASHINGTON, October 14 .- It is learned that Secretary Noble's decision in the rerated pension case of Senator Manderson in which, as indicated in the Senator's letter to the Secretary, it is held that his re-rating is unlawful, was arrived at some weeks ago (though not made public), and then established a precedent which has since been followed by the department in a number of similar cases. Senator Manderson, however, it is said, occupied a somewhat different position from a majority of the pensioners re-rated by Commissioner Tanner, and particularly those who occupy official positions in the pension bureau. Without drawing the arrearages that the

certificate showed were due him, Senator Manderson at once wrote to the Secretary of the Interior inquiring whether the increase in his case was made in accordance with law. The Secretary, in respense, forwarded to the Senator a copy of a decision which he had just made in case in which it was held, as before stated, that while the Senator was wholly blameless in the matter, the re-rating and increase were clearly in violation of law. Thereupon Senator Manderson promptly returned the certificate to the department that it might be cancelled.

It is learned that there are 21 of the em-

ployes of the Pension Office whose ratings have been increased. It is said that among the first duties the new commissioner will be called upon to perform will be the re-covery of all moneys illegally paid on pen-sion claims. The commissioner undoubted-ly has this right, and in those cases where the money has been placed beyond the reach of the law the Government can apply all future pension payments to the liquidation of the debt. So far, however, no attempt has been made to recover any of the moneys so unlawfully paid. A number of the 21 employes of the Pension Office, whose pensions were re-rated and increased, have le't the Government services since this section. the Government service since this action was taken. #### TARIFF REVISION IS FIRST. Blaine Says Congress Must Look After That

Before Anything Elac. WASHINGTON, October 14 .- It is widely believed here that the President will recom-mend in his message some decided modifications of the existing tariff. From remarks he has let drop to persons who have conversed with him on the subject it is inferred that he realizes the party expediency of such a course, and two members of his Cabinet whose counsels would be most likely to influence are of the same mind. Secretary Windom's Northwestern education fits bim to favor revision, while Secretary Blaine has, within a few days, expressed himself decidedly in hope that Congress will take up the question at once and dispose of it. The conversation was started by his friend's inquiry what he thought of Representative Lodge's scheme for a Federal election law as means of bringing out a fair vote in the Southern States. The Secretary answered that this was not the time to bring such an issue before the country. He added:

What the people expect of Congress is to defer all other general legislation till the tariff question is put out of the way. As long as that hangs over its head it can hope to do nothing satisfactory in other lines. It would be the wisest stroke of policy for the Republicans of both Houses to unite, as soon as Congress con-Windom's Northwestern education fits bim

As long as that hangs over its head it can hope to do nothing satisfactory in other lines. It would be the wisest stroke of policy for the Republicans of both Houses to unite, as soon as Congress convenes, upon a bill designed to meet the popular demand for tariff revision without disturbing the welfare of any established American industry. Other matiers, however interesting and important, can afford to wait till this one is adjusted, for, with the people once satisfied that the Republican party has made its promises on this head in good faith, they will give it all the heartier support in any enterprise st undertakes afterward.

WASHINGTON, D. C., October 14 .- The reorganization of the army so long talked of and so often deferred seems as far off as ever from the multiplicity of bills and the diversity of their bearing which will come before the next Congress. Among others Senator Manderson's bill provides for adding 50 to clean out the Louisville and Nashville companies to the infantry, with a view of shops. ziving it a 12-company, three battalion organization, like that of the cavalry and ar- word went into the jail as usual and let out tillery. Under that bill 50 captains would from the cage into the corridor be made majors, 100 first lieutenants would become captains, 150 second licutenants would become first lieutenants, and these promotions would involve an increase of pay amounting to \$104,120 per annum. This measure deals with the infantry alone; but another, known as the Steele bill, while preserving the feature of 12 companies for the infantry, makes a much more radical change by providing that in time of peace each of the regiments of cavalry, artillery and infantry, although at all times fully officered, is to have only eight companies manned. be made majors, 100 first lieutenants would three prisoners to wash, Franklin behave only eight companies manned.

### A BREAK FOR LIBERTY.

The Desperate Manner in Which a Prisone Attempted to Regain His Freedom-The Muzzle of a Revolver Had

No Terrors for Him.

HILLSBORO, ILL., October 14,-One of the most desperate breaks for liberty ever made by a prisoner in this county was attempted by Harry Franklin, a prisoner in jail here last night. Franklin tried to commit highway robbery on Mayor Wilton, of Litchfield, recently, and escaping from a shower of bullets, fired by a special policeman who had been warned of the attempt, was afterward arrested in East St. Louis while trying

daunted, he rushed again and was again sent to his knees, this time with the butt end of the revolver.

As he again arose covered with blood and looked in a the revolver, he was told by the Sheriff that he would have to kill him. His only reply as he rushed forward was to say, "Shoot and be——," that it was liberty or death with him. The Sheriff hesitated to shoot at the man, believing he could handle him without killing him. Thus the desperate struggle went on till both rolled first down one flight of stairs, then down another. By this time Franklin had fainted from his injuries and loss of blood. The other two parties, who had undoubtedly agreed to help him, had all the time cowered in the corner trembling. On examination this corner trembling. On examination this morning Franklin was found to have 17 cuts clear to the skull. Sheriff Griswold's injuries were slight.
